

Six Sigma Green Belt Certification Course

Friday-Sunday, Oct. 13-15

Fri. & Sat.: 8:30am-5:30pm

Sunday: 8:30am-1:30pm

Location: TBD

Learn how to integrate principles of business, statistics and engineering to achieve tangible results in IIE's Six Sigma Green Belt for Process Improvement course. As a Six Sigma Green Belt, you will be equipped to support and champion Six Sigma implementations in any organization.

The course will give you a thorough understanding of Six Sigma and how to eliminate defects through fundamental process knowledge. You'll be able to quantify the critical quality issues in a company and then apply statistics to provide probabilities of success and failure.

At the end of the course, participants who pass the IIE Green Belt Exam will receive IIE's Six Sigma Green Belt Certificate (valid for 3 years).
